

Società Italiana di Economia dei Trasporti e della Logistica (SIET)  
Italian Society of Transport Economics and Logistics

**XXVI Conference, "Methods, Practices, and Policies for the Future of  
Mobility"  
Milan, September 19<sup>th</sup> – 20<sup>th</sup>, 2024**

**Updates : Submission form active from 23/03/04**

**Proposed keynotes presenters**

**extended deadline for abstracts submission**

### Call for papers

We are pleased to announce that the **XXVI Conference of the Italian Society of Transport Economics and Logistics (SIET)** will be held on **September 19th and 20th 2024** at the campus of **University Milano Bicocca**. The conference is organized by the *Department of Economics, Quantitative Methods and Strategy* and the *Department of Sociology and Social Research*.

This year's conference focuses on the future of mobility, examining both challenges and opportunities. Under the title **"Methods, Practices, and Policies for the Future of Mobility"**. All relevant topics directly and indirectly related to Transport Economics and Logistics are welcome.

The Conference aims at promoting both theoretical and applied research, with an interest in policy implications, while fostering interactions among researchers, practitioners, policy makers and experts on recent advancements for the understanding of mobility.

Papers are welcome on issues dealing with (but not limited to): transport planning methods, project evaluation, environmental impact of transportation, supply chains, transport decarbonization, energy and transport, sustainable transport policies, active mobility, urban transport policy, city logistics, transport and social inclusion, travel behaviour, accessibility, Mobility as a Service (MaaS), regulation, etc.

**Keynotes** sessions will be proposed: Domenico delli Gatti (unicatt) will hold a presentation on agent based modeling approach; we also invited Paul Smaldino (Univ. of California) for an online presentation on the formation of knowledge in scientific communities.

**Call for Extended Abstract**

Interested presenters should submit an **extended abstract** (1000 to 2000 words) by April 25th, 2024. It is recommended, especially if authors are interested in the latter publication of their abstracts, to use the template available in Italian or in English. The abstract should clearly state the research question(s), the methodology, the main (or expected) results and a list of selected references.

Organizers will later consider the possibility to publish accepted extended abstracts in *Rivista di economia e politica dei trasporti*. Additional publication opportunities may be proposed at a later stage.

Submission is made through the module available at: [t.ly/2n22V](https://t.ly/2n22V).

#### Mentoring sessions

Researchers who wish to discuss research at an early stage or work in progress, or ideas for future research should explicitly indicate this during submission. The organizers will consider the possibility to group these proposals in dedicated sessions where interactive discussions are privileged.

#### **Call for Special Sessions (extended deadline)**

Interested scientists can propose **special thematic sessions** by April 30th, 2024, at the following mail: [siet2024milano@gmail.com](mailto:siet2024milano@gmail.com). These sessions will typically consist of 4 contributions, that should be specified by the proponent. The submission should include the name(s) of the proponent(s), title of the session, an abstract (maximum 200 words, 3–4 keywords), and a list of possible contributions (title, author(s), affiliations, corresponding contacts).

Special sessions from other scientific associations are welcome.

A special session will also be organized with the research center [Polaris](#) of Milan Bicocca University dealing with particulate matters pollution.

#### **Awards**

During the conference, SIET will assign the following awards:

- the "**2024 SIET Best Paper Award**" for the best theoretical or empirical paper presented at the XXVI SIET Conference by a young researcher (under 35 years). The winner will receive a prize of €300 as well as a two-year free SIET membership;
- the "**2024 SIET Best Doctoral thesis**" for the best Doctoral thesis on Transport economics and Logistics examined in the 2023 calendar year or by April 2024. The winner will receive a prize of €1000 well as a three-year free SIET membership.

Additional details on both awards will be emailed to all SIET members.

#### **Important dates**

- Proposal for Special Session deadline: **April 30<sup>th</sup>, 2024**
- Extended Abstract submission deadline: **April 25<sup>th</sup>, 2024**

- Accepted abstracts notification: **May , 2024**
- Early bird conference registration: **June, 2024**

**Registration fees :** the registration rates will be mostly aligned with the one proposed in recent editions of the SIET conference, with some slight adjustments.
